EXPERIENCE

FULL STACK DEVELOPER | BAYZAT | REMOTELY

September 2025 - current

- Built and maintained full-stack features using Next.js and React for Bayzat's work-life platform, delivering scalable and performant user-facing modules.
- Collaborated across the stack, from REST API design and database integration on the backend to component architecture and state management on the frontend.
- Improved code quality and developer experience by refactoring legacy modules, introducing reusable component patterns, and enforcing consistent TypeScript practices.

FULL STACK DEVELOPER | METACHAIN | REMOTELY

May 2024 - August 2025

- Built evnno, an AI landing page platform for freelancers using Next.js, Stripe, Vercel, and AI generation pipelines.
- Built Dozny, an AI campaign and creative platform for creators using Next.js, OpenAI, AWS, and Stripe.
- Owned full-stack delivery across frontend, backend, database, and production deployments.

FRONT END DEVELOPER | ALL-TECH | SWITZERLAND

April 2023 - October 2023

- Developed multiple AR environments with 8thWall for Swiss events, including Museum showcases.
- Investigated a solution for AR from scratch using React Three Fiber, enabling us to avoid 8thWall costs.
- Built a native solution using the Swift language and App Clip feature to address the iOS problem where React Three Fiber does not support AR on the iOS system.

AWS CREDITED INSTRUCTOR | GAZA SKY GEEKS | PALESTINE

March 2022 - October 2023

- Instructed over 150 students in AWS Cloud Computing, facilitating their preparation for the AWS Cloud Practitioner certification.
- Taught full-stack web development focusing on React for the front end and Express.js for the back end, emphasizing teamwork and collaborative project participation.

PROJECTS

Emergency Committee • Herfa • 4co • iMinds • Cons • AZR • Saafeef • LOI • evnno • Dozny • BounceGame • GameHub

SKILLS

PROGRAMMING

Proficient:

JavaScript • TypeScript • HTML • CSS • SQL

Experienced:

Python •

Familiar:

Shell •

LIBRARIES/Frameworks

React.js • Node.js • Next.js • Three.js • ReactQuery • Express.js • Zustand • Redux

TOOLS/PLATFORMS

AWS • Git/Github • GitHub Actions • Docker • Vercel • make.com • Wix • Framer • Claude

EDUCATION

UNIVERSITY OF PALESTINE

BACHELOR'S IN ENGINEERING.

May 2018 | Palestine

GAZA SKY GEEKS

WEB DEVELOPMENT DIPLOMA

December 2021 | Palestine

Code Academy

AWARDS

2023 Developer - Associate
2022 Cloud Practitioner
2022 Solutions Architect - Associate
2022 AWS Credited Instructor
